Importing an LMS unit’s calendar into Student Calendaring

Step one
Navigate to lms.uwa.edu.au

From the Unit Overview select the unit you wish to export the calendar for.

If the unit uses an event calendar you should see the box ‘Upcoming events’. By default it appears in the left column.

Click on ‘Go to calendar…’

Step two
From this page select ‘Export calendar’.

Select which events and the duration, and then click ‘Get calendar URL’.

The LMS calendar URL should appear below, copy the URL starting from ‘http://…’.

NOTE: Sometimes this page fails to load correctly and you may get an error message. To fix this refresh the page OR click the back button and ‘Get calendar URL’ again.

Step three
Click the down arrow next to ‘Other Calendars’.

In the pop-up enter paste the iCalendar link.

Click ‘Add Calendar’.

You are done!
You should now see ‘Calendar was imported successfully.’

Importing an LMS unit’s calendar into Student Calendaring

Doesn’t work?
Help is available! But before coming for help, please try the following:

- Double-check your student number and Pheme password are correct and have not expired.
- Check the URL for missing characters.

If it still doesn’t work, contact Information Services.

*In person:* At an inquiry desk in one of the UWA subject libraries
*Self-service or email:* [http://ipoint.uwa.edu.au/app](http://ipoint.uwa.edu.au/app)
