Unifi on Windows 7

Step one
Click on the network manager icon in the system tray

Select and connect to “Unifi”.

Step two
Enter the following details:

Username: Your UWA student number
Password: Your Pheme password

Then press “OK”.

Step two
If a Windows Security Alert appears, press “Connect”.

You are done!
After a few seconds you should be notified that the connection was established successfully. You now have Internet access.

Doesn’t work?
Try the following tips:

- Double-check your student number and Pheme password are correct and have not expired
- Move around to ensure you are in a location with good wireless reception

Still doesn’t work? Help is available!
