Step one
From the home screen, you will need to go to the App Store:

Step two
Search the App store for the App entitled: “Junos Pulse” and install it.

Step three
Once the App has downloaded and installed, open it:

Review and Accept the End User License Agreement. Then press “Enable on the following screen”:

Step four
Once you have enabled the Junos Pulse app, select the arrow located towards the right of the VPN list:

Select “Add new configuration”.

Step five
Set the following options to:
Name: Uniconnect
URL: https://uniconnect.uwa.edu.au

NOTE: Leave ‘Certificate’ as None

Once these options are entered, select “Save” from the upper right corner.

Step six
Once returned to the VPN list, you should now see a configuration entitled: “Uniconnect”:

More information: http://uniconnect.uwa.edu.au
Uniconnect for iPhone, iPod Touch and iPad

Press the “Connect” button.

You should now be prompted to enter your username and password as follows:

- **Username:** Your UWA Person ID (i.e. your student or staff number)
- **Password:** Your Pheme password
- **Domain:** Select Student, Staff or Guest depending on your affiliation with UWA

When ready, press “Sign In”.

**NOTE:** You will need to review and agree to the UWA Computer and Software Use Regulations that will appear following authentication.

**Connected!**

After a few moments a green tick should appear next to the “Uniconnect” configuration and a VPN icon will also appear in upper bar of the screen denoting that the connection has been established successfully.

You can now leave the app and it will continue to maintain a connection until you disconnect it.

**To disconnect/reconnect**

To connect or disconnect Uniconnect, simply open the Junos Pulse app and press the orange connect/disconnect button.

**Doesn’t work?**

Help is available! But before coming for help, please try the following:

- Double-check your UWA person ID and Pheme password are correct and have not expired.
