UniDrive on Mac OSX  newRow & newRow Guide

Step one
Open Finder by clicking on the icon from the Dock.

Step two
Select the ‘Go’ menu then ‘Connect to server...’

Step three
In the ‘Server Address’ field, enter the URL of the server you wish to connect to.

For your Student Network Folder use:  

- https://unidrive.uwa.edu.au/userhome

For access to other shared folders use:

- https://unidrive.uwa.edu.au/data

Step four
Next to ‘Connect as:’, make sure ‘Registered User’ is selected.

Enter in your credentials.

NOTE: Your ‘Name’ is your student number and your password is your Pheme password

If this is your personal computer, check the box for ‘Remember this password in my keychain’.

NOTE: This means that you (or anyone else using this device) will be able to access the contents of this folder without entering a password

Choose ‘Connect’

Step five
If this is your first time connecting the ‘Verify Certificate’ box will pop up, click ‘Show Certificate’

NOTE: If this isn’t your first time connecting you may be able to jump to You Are Done! on this guide.
UniDrive on Mac OSX & Guide

Then select the check box next to ‘Always trust’.

NOTE: You may be prompted for your computer credentials. ‘Name’ is your computer username or name. ‘Password’ is your computer password.

You are done!
You can now navigate to your network drive in Finder. It will display in the left column under ‘Shared’.

Doesn’t work?
Try the following tips:

- Double-check your student number and Pheme password are correct and have not expired.
- Double-check you are correctly enrolled in at least one unit this semester

Still doesn’t work? Help is available!
