

WebDAV Navigator

THE UNIVERSITY OF
WESTERN AUSTRALIA

Achieve International Excellence

First Step

Select the WebDAV Navigator icon on the desktop

Second Step

Select the “+” to add a new server connection

Third Step

Enter a “Name” to distinguish the server connection from other WebDAV server connections you create

Enter the “Server URL”

Enter your “Username”, this will be your staff or student number

Enter your “Password”, this will be your phone password

Select “Save”

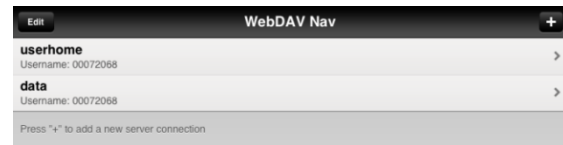

The example below connects to your UNIWA home drive

The Server URL is
<https://unistore.uwa.edu.au/userhome>

The example below connects to the UNIWA shared drive

The “Server URL” is
<https://unistore.uwa.edu.au/data>

To access the files, select the connection from the list available

You can then browse to the files you want to access
